Summary

Final-year Computer Science student with a strong focus on UX/UI and Product Design. Experienced in designing mobile and web interfaces in Figma – from user research and wireframes through to high-fidelity prototypes. Also comfortable building in React and HTML/CSS, which means I understand how designs actually get implemented. Looking for a UX/UI or Product Design internship or entry-level role where I can own the design process end to end.

Design and Technical Skills

- **Design:** Figma (Wireframing, Prototyping, User Flows, Components, Design Systems), UX Research, Usability Testing, Information Architecture, Visual Design, Responsive Design
- **Frontend:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- **Other:** C++, MySQL, WordPress, Git, GitHub

Design Projects

Kreuz Vinyl – Record Shop Mobile App

August 2025

- Designed the full UX/UI of a mobile app for an underground Berlin-inspired vinyl record store, covering browsing, record details, wishlist, and live events screens.
- Built complete user flows for each feature and created a dark, mood-driven visual system with strong typography hierarchy – translating the brand identity into a usable digital product.
- Tools: Figma [Live Preview](#)

Manodasha – Mental Health Tracking App

September 2024

- Designed wireframes and high-fidelity screens for a mental health app focused on calm, low-friction interfaces – minimizing cognitive load for users in distress.
- Designed mood and activity tracking, progress dashboards, and wellness reminder features with an accessible, intuitive layout throughout.
- Tools: Figma [Live Demo](#)

Divinepedia – Mythology Exploration App

October 2024

- Designed user journeys for a mythology learning app, with categorized content, light and dark mode, and a modern typographic system to make dense information easy to explore.
- Tools: Figma [Live Demo](#)

Experience

Freelance Frontend Developer

July 2024

Client Portfolio Website [Live](#)

- Designed and built a complete portfolio website for a client using React.js, JavaScript, HTML5, and CSS3 – handling both the visual design in Figma and the frontend development.
- Delivered clean navigation, custom UI components, and a responsive layout across devices.

Education

Chandigarh University

August 2022 – June 2026

Bachelor of Engineering in Computer Science and Engineering

- CGPA: 7.58

Euro International School CBSE Class XII – 81.67%

2021 – 2022

Euro International School CBSE Class X – 87.83%

2019 – 2020
